Fauna Finder: App Mock-up

Penelope LTD

June 3, 2023

## Contents

1 Start-up sequence

Figure 1: App opening sequence

Notes: App starts up with tutorial which the user can swipe through or skip. This start-up sequence only launches when app is opened but can be re-triggered on information screen.
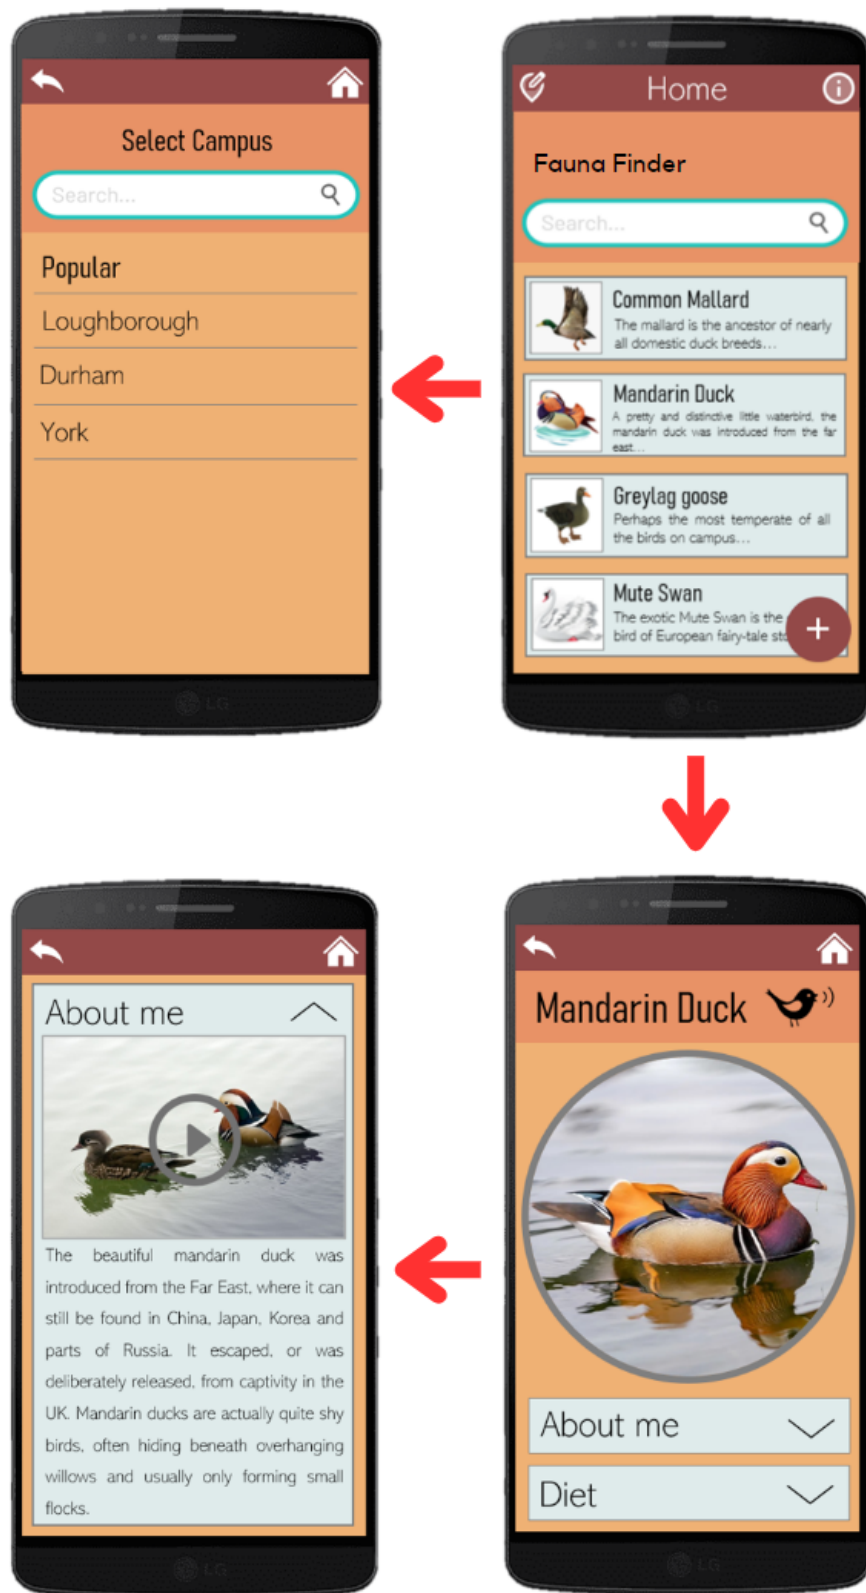

2 Main interface

Figure 2: Main interface

Notes: Main menu contains bird entries for user to scroll through. Clicking on an entry takes you to the dedicated profile for that bird. Clicking the location icon in the main menu takes the user to the location selection menu.

3 Information pages

Figure 3: Main interface

Notes: The information icon in the main menu takes user to the main information page. The 'About the creators' and 'Licensing' pages can be accessed through the information menu, whilst the 'How to use the app' link restarts the start-up tutorial sequence.
